VULCAN — ALBERTA

SPLENDID ENTERTAINMENT

The three act comedy, "All Tangled Up," put on in the Opera House on Thursday evening last by members of the Vulcan Citizens' Band proved to be the best show that has so far been staged by local talent, in fact it was as good, if not better, than the road shows that played in Vulcan a few months ago. The members who took part and also those who assisted them in the enterprise deserve all the praise that was accorded them by all the people in attendance.

The show was billed for 8.30 and about an hour before then the band paraded the streets in full uniform headed by a drum major in comic costume. This had the effect of getting people started towards the hall and long before the time to start crowds of people could be seen wending their way to the theatre in order to get a good seat. They came so fast that they could not be dealt with fast enough at the ticket office and this caused a queue several yards long and two deep outside the doors waiting anxiously to gain admission, consequently, when the curtain rose a few minutes after time the house was packed, every available seat occupied and people standing at the rear.

The play could not have had a more appropriate name and as it proceeded, certainly did get tangled up, so much so that everything and everybody was so mixed up one would think they would never straighten out again. However, all the embarrassments caused some of the actors by the mix up came out all right in the last act and like the novel, everyone was made happy.

All the caste played their parts exceptionally well, but special mention should be made of Miss Caisie, who took the part of Mrs. Halliday, and Max Rutherford as Major Halliday. So well did these two act that they would put in the shade a large number of actors who appear on the stage as professionals, they were sure good and displayed exceptional ability in the difficult roles they assumed. Bob Greacen, a family treasure, who acted as butler to the Hallidays, took his part well and caused roars of laughter time and again with his witty sayings and Irish brogue. Mrs. Max Rutherford, Miss Murphy, A. J. Ober and Guy Denbigh all took their parts well and their ability greatly added to the success of the play.

Mr. Marshall Gooch entertained the audience between the acts by rendering two splendid solos and encores were demanded in no half hearted manner and was responded to by this popular songster. His last song, "Oh, It's A Lovely War," made a decided hit and the antics of the singer as well as the words of the song itself, caused peals of laughter.

The orchestra, composed of Mrs. Marshall Gooch, Fred Elves, D. C. Jones, C. Kettleson, J. Dortch and H. Dortch, contributed some splendid numbers during the evening which were enjoyed by all present.

SERVICE OF SONG

The Vulcan Union Church was again filled to overflowing on Sunday evening last when the Senior and Juvenile choirs put on another of their popular Service of Songs. Extra accommodation had been provided and long before the hour of the service the seats began to fill up with people from far and near, eager to hear these well known choristers. The service was announced two weeks ago and the congregation asked to supply the hymns by depositing the number of their favorite in a box provided at the door. All took an interest in the service and from among the large number of hymns handed in seven were selected and sung. In addition to the hymns the juvenile choir rendered a splendid anthem in a very appropriate manner and a solo by one of the members, Master John Miller, was also very well rendered and was the first junior soloist had been heard in the church. The senior choir also gave two anthems which were well rendered. The combined choirs numbered 46 voices and many were the congratulations offered in the splendid showing made and which again demonstrates the splendid tuition and progress being made by these organizations under the able leadership of Mrs. Marshall Gooch, who takes a keen interest in her work.

PLEASURE BOAT FOR LAKE MCGREGOR

Judging by the crowds that gather each year on the shores of Lake McGregor, the place is rapidly growing as a popular pleasure resort for the residents of Vulcan and surrounding districts. In a few short weeks, large numbers of people from far and near will be seen enjoying themselves again besides the cool waters indulging in swimming, bathing and boating.

Boating is a very popular pastime but as the number of boats available on the lake are in adequate to meet the heavy demand, a large number of people in the past have been unable to indulge in this pleasure and content themselves on the water's edge. This state of affairs did not go unnoticed and through the energy and enterprise of W. F. Jennejohn, our local Ford agent, all who care to do so will be able to make trips on the lake to their hearts content during the coming season. During the winter months Mr. Jennejohn set to work and designed and built a motor launch for passenger service on the lake and in the very near future this boat will be launched with due ceremony befitting the occasion. The boat is a large one, being thirty-two feet long with a beam of seven feet and has been designed to carry about twenty-five passengers. It is certainly a work of art in every detail, is a credit to the builder and something to be proud of. The comfort of passengers has also been looked after in its construction and the sides of the boat as well as the seats will be lined with nice soft cushions. Mr. Jennejohn is proud of his handiwork, and naturally so, and intends, by special request, to launch it with all the pomp and ceremony in keeping with the occasion and the event is being looked forward to by a large number of people who intend to be present.

The date and time of launching will be announced later and judging by the many inquiries regarding it, nearly all Vulcan will be on hand to take part in the ceremony.

SOCIAL EVENT

A very pleasant time was had at the Liberty Cafe on Saturday evening last when the members of the Vulcan Citizens' Band entertained one of their members, Mr. Max Rutherford to a supper prior to his leaving Vulcan for La Porte, Sask., where he intends to reside in future. Several speeches were made by members of the organization pointing out the sterling qualities of their guest and all expressed their sorrow at his decision to leave Vulcan. Besides being missed by the community as a whole, the band, as well as other organization would miss his services. From its inception he had belonged to the band and had given much of his valuable time to help bring it to the high standing in which it is held by the citizens of the town. In sport circles also he was always to the fore and was one of the chief organizers and supporters of the baseball club. Max, in a suitable speech, responded to all the good things that had been said about him and said that he was sorry himself to leave Vulcan. It was a good town and during his three years residence here he had made many friends whom he would always think kindly of and whatever his lot in the future he would always look back at the good times he had had in Vulcan.

WANTED IMMEDIATELY

If the joker who sent the following bill to Mr. L. F. Dawson at Oyen will call at the office of the Vulcan Advocate, he, or she, will receive postal note for same. Query—Who eat the other supper!

Rev. A. E. Hayes left on Tuesday for his former field of labor at Tongue Creek to take part in the induction services held there today.

SPOONER'S BIG SALE

A. G. Spooner's big sale opens Friday, May 17th. It is to be a bargain event—the greatest in years. The entire store has been re-arranged, 1921 prices re-adjusted and every article in this man's stock will display price tags almost unbelievable, in fact the whole store is in a pleasant flutter of excitement. We are going to be as busy as bees and why wouldn't we be, we are going to sell the greatest Men's and Boy's wear at away below normal prices. I give you my word it's a real sale. The Merchants Retail Sales Service in charge.

LAUNCHING OF BOAT

The launching of the motor boat constructed by W. F. Jennejohn will take place at Lake McGregor, near the Synge ranch, on Tuesday next, May 24th at 3 o'clock. The boat will take the water after the usual ceremony of these occasions and Mrs. Marshall Gooch is arranging a short program to be rendered by the juvenile choir of Vulcan Church. A good time is anticipated so everybody come along and take part in the ceremony.

BOYNE SCHOOL REPORT

The following are the results of examinations held in Boyne School recently:

Geography—Grade VIII—Ben Herdman 95. Grade VI—Claude Lyman 95; Jean Bowie 40. Grade IV—Ethel Munday 93. Grade III—Ruth McPherson 93; Florabell Munday 75. Grade III—Ruth McPherson 90; Florabell Munday 80. Grade II—Margaret Herdman 100; Oren Lyman 93; Lexington Johnston 55. Grade I—Francis Hendley 95; Howard Munday 95; Elizabeth Hendley 80. Mrs. Wm. Bowie, Teacher.

NOTICE

To Farmers and Horse Breeders

Better horses, bigger horses, is the cry of every horseman in the country. The Belgian stallion "Cassino" will stand at his home stable, on N.W. 1/4 of Section 33-16-26, eleven miles straight west of Vulcan. "Cassino" is the best horse that ever struck this country. He is out of some of the best stock in the United States, is four years old and weighs 2500 lbs. Anybody having big mares will be well to give this colt a trial. The service fee will be \$20.00, \$5.00 down.

H. Hungerbuhler
S. H. Manuel, Owners.

Miss Davis, of the staff of the Canadian Bank of Commerce, was a visitor to Claresholm over the week end.

Mr. and Mrs. Dyce Allan left for Calgary on Saturday evening and on Sunday Mrs. Allan left for Nova Scotia where she will visit with relatives and friends for a few weeks.

Change In Train Service effective Sunday May 22nd, 1921

TRANS-CANADA Limited, all standard sleeping cars, Trains 7 and 8 between Montreal, Toronto and Vancouver will be resumed. First train from Montreal and Vancouver May 22nd.

Times for trains at:

VULCAN	
North Bound	South Bound

6:46 p.m.	Daily Ex. Sunday 10:25 a.m.

800-PACIFIC Express. Trains 13 and 14 between St. Paul and Vancouver will be resumed. First train from St. Paul and Vancouver, June 5th, 1921.

For further particulars apply to any Ticket Agent or

J. E. PROCTOR
District Passenger Agent
Calgary.

LOCAL ITEMS

Mrs. Ed. Maloy, of Nanton, was in Vulcan over the week end visiting with her daughter, Mrs. Geddes.

Mr. and Mrs. C. H. Wheeler and Dr. McPherson motored to Calgary on Friday and returned home on Sunday.

Mrs. O. A. Craig, who was called to Winnipeg about two weeks ago owing to the serious illness of her brother, returned home on Tuesday last.

Miss Murphy, of the Vulcan school staff, was in Calgary over the week end visiting with friends and relatives.

When in town on Saturday don't forget to attend Spooner's Big Sale which starts on Friday, May 20th. See posters and advt. on another page for big bargains in Men's Wear.

By special request, the three act comedy, "All Tangled Up," presented by members of the Vulcan Band, is to be repeated in the Opera House again to-night, (Wednesday).

Jack Wolfe, the Chevrolet agent in Vulcan, has disposed of quite a number of new cars in Vulcan and district just recently. Some of the purchasers are as follows: John A. Smith, Mrs. Koeller, and Mr. Moir of Lomond.

WANTED—Girl to help with housework. Apply Mrs. L. A. Wright, Vulcan. May 11th

Miss Beatrice Leverington, of Kamloops, B.C., who has been visiting with her parents for the past two weeks, returned to Kamloops on Friday evening last.

Mr. C. P. Rutty, of Calgary, was a business visitor in town on Tuesday.

Miss Vertie McQueen left last week for Canmore where she will visit with friends for a few weeks.

Mr. Hayes regrets that a sentence should be detached from his sermon to the Oddfellows on Sunday last and be given a local application. No local application was intended and none should be taken. It would not apply anyway.

The Berrywater local U. F. A. 195 have received a rain and snow gauge from the Dominion government. Mr. D. B. Sims has offered his services as recorder and the gauge will be installed on his farm.

Mr. and Mrs. Max Rutherford left Vulcan on Sunday for Calgary, where they will spend a few days before proceeding to La Porte, Sask., where they will reside in future. Mr. Rutherford is going into the hardware business at that point.

By the special request of a large number of the citizens of High River, the Vulcan Citizens' Band have arranged to give a Sunday concert at that town and May 29th is the date chosen. The Band boys hope that as many of the people of town and district will go along with them and enjoy a day in the splendid park which is the pride of that town.

Vulcan and district as well as all Southern Alberta was visited last week by an exceptionally violent wind storm which blew at the rate of about sixty miles per hour. From inquiries made very little damage has been done to the growing crops and very little land will have to be reseeded.

A practical demonstration of the Fordson Tractor will be given on the farm of Peter Terry, just across the track near the depot, on Thursday, June 2nd. Mr. T. McQuinn, mechanical expert, will be present and will be prepared to answer all questions on the mechanical features of the tractor. This is your opportunity to see the tractor do some good work and at the same time get some information on its construction.

A Blackstock, graduate of Manitoba Agricultural College and a practical farmer, will give a lecture in the I.O.O.F. Hall at eight o'clock in the evening of Thursday, June 2nd. At this meeting present day farm problems will be discussed and questions and discussions will be invited. The lecture will be illuminated with specially prepared moving pictures. Come and hear Mr. Blackstock's interesting talk.

Tommy Logan left on Friday evening for Calgary, where he visited with friends over the week end.

Mr. G. A. Middleton, manager of the Bank of Hamilton at Enchant, was a visitor in Vulcan over the week end.

OIL IN ALBERTA TESTS RICHEST OF ALL CANADA

Government Report Made on Fort Norman, Okotoks and Other Productions.

The richest oil in the whole of Canada and the most productive oil well produced so far in the west are contained in the province of Alberta, according to a heretofore unpublished report, which has just been compiled by the Mining Lands and Yukon branch of the department of the interior, under the local direction of Western and Yukon Engineer C. E. Slipper.

The three oil wells yielding the highest percentage of gasoline so far discovered in Canada, lie in the Okotoks field, and two of them produce 66 per cent. of gasoline. These two wells the Alberta Southern No. 1 and the Illinois Alberta No. 1, lying in L.S. 8-13-20-3-5, and L.S. 14-12-20-3-5, respectively, are also very rich in illuminating oils, their percentage being 28 and 29 per cent. of this fluid. And their losses in residue are but one and two per cent., respectively. The former well has been drilled to a depth of 3,000 feet; and the latter to 2,263 feet. Their production so far has been 20 and 30 barrels per day. The respective specific gravities of the oils from these two wells are 54 and 54.5 Baume. The Southern Alberta No. 1 well, lying in L.S. 5-18-20-2-5, Okotoks field yields the third highest percentage of gasoline. With a specific gravity of 54 Baume, this well produces 20 barrels of 50 per cent. gasoline oil daily. It has been sunk to 3,080 feet. The production is obtained by flowing the well intermittently, and it is produced at a greater rate if put on the pump.

Take Honors.

The Oil City Original District No. 1 well, owned by William Livingston, of Calgary, takes the honors for the highest producer in the west, and perhaps in Canada. Affidavits show that this well has produced 350 barrels per day, and it is declared on good authority that it has produced as much as 1,000 barrels per day, which makes it one of the best producers, if not the best in Canada. The oil from this well is of very high commercial value and shows only 7 per cent. residue. When the government report was made on this well it was 1,020 feet deep, but it is being further drilled at the present moment. This well is situated in the Waterton Lake district, which has gained prominence of late, and in which every available foot of ground has been leased.

Although the Fort Norman well has been reported to have brought a production of 800 barrels of oil per day, no official figures confirming this report have yet been compiled by the government.

Richest in Canada

A highly pleasing feature of this report on western oil fields is that it shows that the oil so far brought to the surface in Alberta is the richest in Canada.

The Okotoks and Waterton Lake fields are shown to be the only productive fields in the west, while the Viking and Peace River fields have shown nothing but seepages so far, with rather low percentages of gasoline.

The Peace River oil yields practically no gasoline (only 2 per cent.), but they are very exceptionally rich in lubricating oils, and, unlike the other oils of the west, contain appreciable quantities of naphtha. With a specific gravity of 12 Baume, these oils contain 4.87 per cent. naphtha, 66.3 per cent. lubricating oil, and 26.5 per cent. light lubricating oil. The Peace River wells have been sunk from 962 to 1,032 feet. These are seepages.

The Viking well, sunk to 2,360 feet by the Viking Oil Company, shows an exceptionally large amount of residue, and only 5 per cent. of gasoline. Its specific gravity is 19.7 Baume, and it yields 22 per cent. illuminating oil and 15 per cent. light lubricating oil.

Fort Norman Tests

Specimens taken from the Fort Norman well, which has been sunk to 783 feet, seem to be the richest in illuminating and light lubricating oils, the percentages thereof being 38.2 and 33.7 respectively. It has yielded only 23.8 per cent. gasoline. It shows 4

per cent. of lubricating oils and residue. A surprising feature of this oil is that there is no asphaltic or paraffin residue.

The Dingman Lower Horizon well, situated at L.S. 14-6-20-2-5, Okotoks field, has a yield of 100 barrels per month, and has a very rich gasoline percentage of 58. It also produces a high percentage of illuminating oil, namely, 40 per cent.; and, like the Illinois Alberta No. 1, it has a total residue of only 5 per cent.

The Record Oil Company have the deepest well drilled in Canada. This well, also in the Okotoks field, has attained a depth of 4,325 feet, and a good showing of light oil and some wet gas was obtained.

From the report, it can be noticed that the average depth at which oil is struck in Southern Alberta and the Viking field, is about 2,500 feet, while the Fort Norman and Peace River wells are struck at 783 and 962 feet respectively. This makes the additional expenses incurred in drilling operations in this altitude quite apparent.

RED CROSS ENROLMENT CAMPAIGN

"We are convinced, of the prime importance of widely disseminating among the people a knowledge of the simple laws of healthful living and the conviction as to the need of applying them," was one of the expressions which found utterance at the Cannes Conference of International Red Cross Societies in 1919, and it is a principle that is being widely observed by the Canadian Red Cross.

The Dominion organization is giving the people of Canada an opportunity to show how much they believe in the usefulness of this organization by instituting a membership campaign during the week of June 5th, in which every citizen of Canada will be asked to assume some of the responsibility being carried by this body.

The Canadian Red Cross wishes to give to the people the benefit of scientific knowledge through the medium of education, and no better way can this education be commenced than by joining the Red Cross during the membership enrolment campaign which will be launched on June 5th.

The Red Cross stood for assistance to soldiers during the war. It now stands for the prevention of disease, the improvement of health and the mitigation of suffering throughout Canada. Membership in this organization will give everyone a chance to do something and to learn to take care of themselves. A drive will be instituted during the week of June 5th to increase the membership of the organization. Membership only costs \$1.00 a year.

The first duty of medicine is not to cure disease but to prevent it. The primary duty of the Canadian Red Cross is to educate the people of Canada to the importance of personal and community hygiene. While this education is going on thousands of dollars are being spent in assisting to cure disease that could have been prevented, if precautionary measures had been taken.

It is estimated that in Toronto, the administration of public health service by the municipal health authorities within a period of ten years has so reduced the number of deaths that about 1,800 fewer people died last year than would otherwise have been the case.

The aim of the Canadian Red Cross is to make this improvement in conditions general all over Canada. The membership enrolment campaign will commence June 5th and last one week in a mighty effort to increase the membership of this organization that a big percentage of people in every community, by subscribing to the tents of this society, will assist in making Canada a cleaner and healthier place to live in.

Fifty managers of branches of the Royal Bank of Canada met at Calgary last week for two days, when the general financial situation and matters of institutional interest were discussed. Mr. J. H. Hunter, the manager at High River was present at the convention.

It is a great mistake to appoint a cynical and bigoted individual to official position of any kind. He may be perfectly trustworthy and reliable in the matter of dollars and cents, but a miserable bigot who will refuse to listen to reason and ready to force others to agree with his narrow views. Such men should be relegated into obscurity. They are no good to themselves, the community, or the world for that matter.

A persistent rumor is current that a general election will take place in Alberta this year.

The season for exaggerated golf stories is on and later on the fish liar will have his innings.

OIL DEVELOPMENT IN ALBERTA

The Cardston Globe had the following to say on the oil situation which would indicate that we are on the eve of great developments in the oil industry:

The Imperial Oil company have two wells in the Pincher Creek country which are in the locality of shallow drilling. No. 1 well is down some 2,500 feet and No. 2—which is closer to the Twin Butte district—is down about 1600 feet. These wells are about eight miles apart, and No. 2 is almost due west of us in Section 16-3-29, located on Pine Creek. The No. 1 well is nearer Yarrow Creek. From the information received there are strong probabilities of the No. 2 well bringing in oil before many days. On the 17th instant gas was encountered that had a strong flow, and upon being piped out a safe distance for igniting, gave a very fine demonstration of the use it would be for fuel or lighting.

This well is reported as being in the black oil sands and on the 24th inst. was sending up a heavy wet gas that the driller Mr. Snyder, stated intimidated the near approach of the drill to the crude oil that means so much to

any country when obtained in paying quantities.

For being the best located field in the south on account of the erosion of the ages removing so much of the covering, the country south of Pincher Creek has always been esteemed one of the coming oil producing districts of Alberta.

We are certainly going to hear of great developments this year as to petroleum and its products.

the High River aerodrome. On Friday Major Croil, accompanied by Col. Leckie of Ottawa, made a flight to the mountains, but owing to cloudy weather they did not cross the mountains as was their intention. On Monday, Captain Shields tested one of the planes and in both instances the engines worked very smoothly, and with the utmost satisfaction.

Major Breadner of the Certificates Branch of the Canada Air Board was in High River, making an examination of the engineers' certificates at this point. He returned east on Saturday evening.

It will be of interest to our readers to know that the first commercial air route scheme in Northern Alberta and beyond will commence operations by the end of May. Captain May, promoter of the project, is now at Camp Borden taking special training in aviation. He will return to Edmonton shortly with a navigator's license, three new flying boats for service in the north and a crew of expert pilots. McLennan will be the base from which the air boats will fly. The route will be along the water courses via Fort Vermilion and Hay River, following the Peace and Mackenzie Rivers to the Great Slave Lake and Fort Norman oil fields.

Fire-patrolling of Northern Manitoba forests will be undertaken by air-planes during the coming season. It is expected that a number of government planes will be used in this work.

BLACKIE NEWS

There were seventy-two articles of linen added to the Blackie sub-station by the ladies of that town.

J. Steir was recently appointed policeman of the village of Blackie in succession to G. Fisk, recently resigned. Defenders of the law would do well to keep out of Blackie from now on.

Mr. Robt. Wilkinson, who has filled the office of reeve of Blackie for several terms has resigned the position, as it may conflict with business of the Blackie Electric Light Co. of which he is the promoter and owner. Mr. Wilkinson has given of his services to the village and for which the citizens are appreciative and we know we express the wish of all when we say that we hope the best of good fortune will be the outcome of his new venture.

STILL SHIPPING SOUTH

A solid train of forty-two cars of Saskatchewan wheat passed through North Portal over the Soo line recently, en route to buyers and millers in the United States; who have been importing the wheat in large quantities in order to get as much as possible across the line before the duty imposed by the Young tariff bill, which is expected to come into effect soon in that country, becomes law. Twenty-five carloads of Alberta cattle were also sent across the border recently.

A livestock shipment of importance to Central Alberta breeders has just been made from Edmonton, consisting of four carloads of choice steers, all weighing about 1,400 pounds, bought from their original owners at 8½c. a pound, which have left for England. This is the first commercial consignment ever made from the Edmonton district overseas, and it is expected to be the precursor of a regular traffic.

The bringing of bootlegging whiskey from Calgary to the various towns and villages in the province is being fairly well controlled these days, and members of the A.P.P. are on the alert, wherever stationed and severe penalties are being imposed on parties found guilty.

FISH HATCHERY IN HIGHWOOD RIVER

MR. RODD OF THE FISHERIES DEPARTMENT PROSPECTING FOR A SITE.

Mr. Rodd of the Marine and Fisheries Department, returned from Banff to High River last Monday, and after spending the day in town proceeded up the Highwood where, in the Trap Creek section of the country, he is busily engaged prospecting a site suitable to immediately instal a "Fish Hatchery."

In connection with a future trout fishing guarantee, it may be well to point out and most emphatically emphasize the fact that unless the Marine and Fisheries Department pro-

claim thinning out of grayling and bull trout and total extermination of ling, it is a mere folly carrying on a useless endeavor to re-stock the Highwood river by means of a Hatchery.

The swarms of what we may term "Practical Rovers" prowling like submarines beneath the waters of the Highwood, in search of valuable cargoes, as exemplified in cutthroat, speckled and mountain trout, to say nothing of the spawn, are indisputably a menace and if not overwhelmed, a positive guarantee of final trout extermination throughout the waters of the Highwood and its contributory streams.

The citizens of High River and vicinity are extremely pleased to notice that the Department of Marine and Fisheries are sufficiently interested in our piscatorial welfare to send a man from Banff to thoroughly investigate conditions in connection with the depletion of our Highwood trout.

WILL TAKE SIXTH GENERAL CENSUS WHEN WE WILL SECURE TABULATED STATEMENT OF POPULATION AND SO FORTH.

On the 1st of June the Dominion Statistician will take the Sixth General census of population and agriculture.

To the thinking person the necessity for a census is manifest. The tabulated information derived therefrom is required in connection with redistribution of seats under our form of representative government and in knowing the needs and also the natural advantages of the various parts of the Dominion. The census of agriculture is of great value in determining the needs of our farmers and ranchers in connection with railway, postal, telephone and highway services. Up to date tabulated information is a necessity to the welfare of any civilized country.

In previous censuses enumerators have sometimes encountered persons who had objections to answering questions regarding their affairs supposing no doubt that this information would be published or used for taxation purposes. There is no ground for such apprehension. The Dominion Bureau of Statistics is a Department of the Government which is absolutely closed to everyone except those actually employed therein and every employee in the Bureau from the Dominion Statistician down to the enumerator in the field is sworn to secrecy.

The Bureau is interested only in tabulated results and the Premier himself cannot have any information till same is published by the Dominion Statistician. The individual record is closed to all save those employees who must see it to get out the various totals for the information published by the Statistician. Even in unusual circumstances like the late war the individual record was absolutely private. We understand that the Department of Militia during the recent war thought they should have access to the unpublished information in the Bureau in searching for defaulters but this information was refused. The Government instructions to enumerators forbids their divulging any information obtained in the enumeration.

The Dominion government has introduced legislation making it a criminal offence for an intoxicated person to be in charge of a motor car. Let us hope it will be rigidly enforced.

Menonites at Swift Current and Manitoba are selling their land and going to Mexico.

From B.C. the report comes of splendid fruit crop prospects. The strawberries will be more plentiful, sweeter, juicier and cheaper than ever before. That means much to the fruit hungry prairie. For the last few years strawberries have been so dear that only the well-to-do could get any nearer to them than the outside of the plate glass in the grocer's window.

The responsibilities resting upon the conscientious school teacher are

not confined to the school room alone but in the playgrounds during recess. The teaching of the intellect is important but the moral standing of the pupil is far more important and fortunate is the community that has a school staff that keeps careful watch over children committed to their care.

The Dominion government is introducing amendments to the Criminal Code, changing the absurd regulation about the possession of firearms without a permit. The despatch does not indicate what change is intended, but the entire restriction should be wiped out.

The Canadian Patriotic Fund still has \$6,100,000 on hand, and from that fund monthly assistance is being given to 856 families and this assistance will be continued for some time to come.

THE RATEPAYERS OF PINCHER CREEK REGRET DEFEAT OF HOSPITAL SCHEME.

The Pincher Creek Echo contained the following editorial in last week's issue in connection with the defeat of the Municipal Hospital scheme in that district and we are reproducing the same with the hope that those who are at present engaged in criticizing the High River Municipal Hospital will cease their "knocking" and help to further the interests of the hospital instead of hampering it. There is an agitation among the people of Pincher Creek to have another vote taken on the scheme when it is said it will carry by the necessary majority.

The subject of infant mortality in Alberta has of late been receiving considerable attention.

The ominous paragraph of the 1919 report, containing the fact that 1560 deaths of children under the age of one year occurred in Alberta, and that this is an increasing, instead of decreasing number is rather a staggering fact.

It is stated that some districts have a higher percentage of deaths than others, and officials of the Department of Public Health have no theory to advance as to why such should be the case. But generally speaking it is attributed to the LACK of sufficient hospital accommodations and proper treatment of maternity cases. Mr. A. K. Whiston, Secretary of the Department, says that a great majority of infant deaths occur within the first few days or weeks after birth.

As a contrast to this, Mr. Whiston says that in the recently created municipal hospital districts supplied with hospitals of which there were five operating for the full year of 1920, and eight for part of that year, out of a total, 444 maternity cases treated at these hospitals, there was not a single death of a mother or child.

The above stated facts should be of arresting interest to all residents of this district, without the ever-to-be-regretted fact of the sad death which occurred in our own hospital district on Friday last.

We have been assured by the local attending physician that could the patient have been hurried to an hospital nearby there was every hope of saving her life.—A life, so precious to her family of five small children, one of whom is an infant only three weeks old.—A life, devoted to the instincts of motherhood, of family and community high ideals.—a life of promise, only along as far as her 35th year, cut off in a few hours because of the LACK OF ANY provision whatever, by the district in which she lived, to save that life. Nor is this the first life to be laid on the sacrificial altar. How many more shall there be, before it is thoroughly realized that a district of this size and pretensions bears the stigma of everlasting disgrace if incompetent to provide for the sick?

LECTURE ON ENGLAND AND SCOTLAND

The following address was delivered by the Hon. Duncan Marshall at various parts of the province during the past year. To begin with he recounted how at a dinner to the foreign judges and distinguished visitors, one Sunday evening at the International Stock Show in Chicago, his Presbyterianism objected to "talking shop" on Sunday, but he had told of his travels in England and Scotland, which had met with such acceptance that he had been called upon to repeat at different places in Alberta.

With as high regard for the people and country of England as of Scotland, yet he came of Scotch ancestry, and his business called him to spend most of his time in Scotland, consequently they would hear more of Scotland than of England. His grandfather had told him something of Scotland, in fact, to him it was the vestibule of the Kingdom of Heaven; not to be born in Scotland, his grandfather thought, was a serious handicap in the battle of life. Scotland he himself found to be "a bonnie, bonnie, land." He and his son had visited the Commons chamber and the House of Lords at Westminster—the mother of Parliaments. Westminster Abbey called out the reverence of all who visited that historic shrine of those who had given of their best to the up-building of the nation in many fields of endeavor.

Mr. Marshall eloquently pictured the beautiful surroundings of the farm home in England—and it rained. It rained easy there, and they got so they did not mind it. The rural people of England and Scotland had learned how best to live on the land, he believed. In travelling through the towns and villages, the footpassenger had the right of way and knew it, and the autos could look out for themselves. Mr. Marshall wittily and graphically portrayed his meeting in the north country with pictures of famous Shorthorn bulls, and their breeder whom he had met in Chicago. At the Edinburgh Live Stock Show he had met Lord Rosebery's chief stockman, Geo. Sinclair, who decanted on the awful rise in the price of whiskey from 2½d to 2s; and had listened to stories of Swan, the famous Glasgow auctioneer. At the Royal Show of England at Darlington, the home of the Shorthorn breed, where it originated 160

years ago, he visited the old home of Thomas Bates, the great early Shorthorn breeder, at Kirkcubright, and gave reminiscences of that famous man, whom he termed the greatest breeder in the world—one of his two-year-old heifers being sold for \$40,250. One of Bates' fundamental maxims was quality—the touch by which you could tell from the hair and the hide of a beast if it would be a good doer and grower. Canadians had a good deal to learn as to the patience, perseverance and skill of the British breeder, which had brought stockmen from all over the world to buy. When they make up their minds, however, that certain animals were to remain in the herd, no money would tempt them to sell. The fine thing about British Shorthorn breeding was that the herds were handed down from father to son; Campbell of the third generation had his grandfather's stock which brought his grandfather's name seventy-five years ago. Melrose Abbey and its wonderful stone carving were eloquently pictured—the heart of Bruce, the body of the great Earl Douglas, were there. Edinburgh, the beauty city of Scotland, and her places of national interest, formed again the preface to further visits to a number of historic breeding farms of the Lowlands; quite a number of these were in groups, which facilitated buying; the breeders of live stock took visitors to see their neighbors' stock, and they were intimately associated together. Back to London they went and on to visit the farms of the Prince of Wales at Devon and Cornwall, which which purchased stock was going to stock the Prince's farm in Southern Alberta. Princetown, with its English strawberries and Devonshire cream; Dartmoor; Plymouth, with its memories of the great naval captains of Queen Elizabeth's day, who finished their game of bowls before they sailed out to fight and break the Spanish Armada, were brightly sketched. On the great monument on Plymouth Hoe to commemorate the deliverance of England from the Armada, neither captains nor men were mentioned, but honor was given to Him whose winds scattered the ships—a beautiful sidelight on British character. It was from Plymouth the Puritan fathers set out to build up a new commonwealth over the seas. North again to Stirling bridge, Stirling Castle and Bannockburn, Loch Lomond, Loch Katrine and the Trossacks, Mr. Marshall swung his hearers—with their traditions of Scottish kings and redolent of the verse and stories of Scott; from The Lady of the Lake, Mr. Marshall quoted with true dramatic fervor. Some of the old castles and farms of Stirling country were touched on, and Mr. Marshall found that the men of wealth and position in Britain were all engaged more or less in agriculture, and dignified that occupation; at the shows the King and the Dukes meet their tenant farmers, and competed with them in the show ring, and the tenant farmers did not come out second best. At Perth, a Shorthorn centre; Seane, where the Scottish kings used to be crowned; Kilmarnock, Craigie-Mains—where they saw great Clydesdale stock; Ayr, imperishably associated with the memory of Burns, whose familiar landmarks afforded opportunity for apt quotation and graphic descriptions from Tam O' Shanter and to Elmesmore and other places where he had farmed and which brought forth some of his finest poems. A weekend of Netherhall at Montgomery's, with its generous hospitality; the wild Moors with their black-faced sheep. Brigand, Kerriemuir, Aberdeen, the cleanest, coldest city he ever saw, with its granite base came next. At the Highland show at Aberdeen they met the great Scotch breeders; here was the home of Amos Cruickshank, the leading Scottish breeder of old days. The pouring-out of man-power from the glens and the highlands during the war was sympathetically touched upon. William Duthie, the greatest living Shorthorn breeder, who owns no land but whose calf sales are renowned throughout the world, and the gentleness and courtesy of the old man, over 80 years old, were lovingly described; nobody could talk cattle to Mr. Duthie on Sunday, nor go through his byres. If you visit him you go to church twice on Sunday and visit the sick in the afternoon. Mr. Marshall paid fitting tribute to the service and sacrifice of the United Kingdom in the great war, and to her great achievement in finance last year, when she met all her obligations in paying off one billion of debt, with no money paid to her by her debtor nations.

What is a Recommendation Worth?

That depends very much upon who gives it. For instance, we recommend Ames Holden "Auto-Shoes" as the cheapest mileage you can buy.

And we know a lot about tires. We have to in our business.

Hence our recommendation should carry some weight, apart from the fact that we are benefiting to some extent by your custom.

We know that if you buy once, you will buy again—because you will find that our recommendation saves you money on mileage.

We will give you a guarantee with Ames Holden "Auto-Shoes" too—a guarantee that protects you against any defect in material or workmanship which may arise at any time in the life of the tire. And we will get you an adjustment on that basis should necessity arise, without quibble or red-tape. Drop in and let us show you Ames Holden "Auto-Shoes" to-day if you can.

CHURCH NEWS

The Odd Fellows and the Rebekahs
attended divine service Sunday morn-
ing in the Union Church. The ser-
mon was based on the 14th chapter of
St. Luke, the theme being "Cross
bearing and the terms of discipleship."

In the chapter referred to we find
Jesus asking two questions, one per-
taining to the building of a tower and
the other to that of a king preparing
for war. Both these questions have to
do with discipleship. Jesus is telling
what requirements are demanded. In
order to understand the force of these
questions, it would be well to know to
whom they were spoken and the cir-

cumstances. The incident has refer-
ence to the period in the life of Jesus
just prior to the crucifixion. On a
Sabbath afternoon He went to the
house of one of the chief pharisees.
In the house was a man that had the
dropsy. At that time the pharisees
were scouring earth and hell to get a
charge against him and He was in-
vited to the house in question in order
that they might trap Him. Jesus asked
them a question to which they gave
no answer. Thereupon He healed the
sick man and let him go. This done
He turned to the guests and criticised
them, then He turned to the host and
told him what to do when he wished
to give a supper. One man there

caught the vision of the life Jesus
would have men live and exclaimed
"Blessed is he that shall eat bread in
the kingdom of God." Thereupon
Jesus told of what kept men out of
the kingdom, passion for gain, the
putting of business first, and human
affections unseparated.

Now when He left the house great
crowds followed Him and it was to
this crowd that He gave the terms of
discipleship and asked those questions.
The terms are, absolute devotion and
a willingness to bear one's cross.
There must be loyalty to Him above
human affection. Jesus did not mean
that we were to hate our brothers and
sisters, mothers and fathers, or our
lives, but that His cause must be put
above these, just as when the great
war came, men put the cause of coun-
try above that of human affections.
Jesus makes it clear that loyalty to
Him must have first place.

So great is His task of building and
so stern is the warfare (consider the
world to-day) that He must have the
best material, just as a man building
a tower or a king going to war, makes
careful calculations. But his disci-
ples are not to count the cost, but to
come at all cost.

It is the Cross of Christ that saves
us, and being saved we take up our
Cross. Just as Jesus gave up of his
own free will and came down to help
us, so we in our turn also give up of
our own free will and help others in
His name.

As an organized body of men and
women you have the greater chance to
take up your cross. To put your
shoulder under some or many pieces of
work and lift. To-day many societies
are at work; and Jesus said "He that
is not against me is for me," and while
not a Church, the Lodges can carry on
shoulder to shoulder with the Church-
es, for the advancement of humanity.

THE BUDGET

Sir Henry Drayton, Minister of Fi-
nance, brought down his Budget pro-
posals in the House on Monday. The
Sales Tax is increased 50 per cent,
from 1 to 2 per cent. to 2 and 3 per
cent. This is expected to nearly raise
the extra 62 millions of revenue want-
ed. Heavier taxes are levied on play-
ing-cards, wines and spirits. There is
no general tari revision. The business
profits tax and the old luxury taxes
are abolished.

**MUNICIPALITY OF MARQUIS
NO. 157.**

council of the Municipal District of
Marquis, No. 157, met at the Lake Mc-
Gregor Schoolhouse on Saturday, May
7th, 1921, with the following members
of the council present: Reeve Sinclair,
Councillors Shouldice, Shore, Rowe,
Ward and Campbell.

Moved by Mr. Rowe, that the scale
of wages covering the current year be
reconsidered.—Carried.

Moved by Mr. Rowe, that the fol-
lowing be the scale of wages for the
current year: Man and team, 70c. per
hour; single hand, 40c. per hour; ex-
tra teams, 30c. per hour; foreman, 50c.
per hour.—Carried.

Moved by Mr. Sinclair, that in
cases where stock is sold by the
poundkeeper and where he does not
secure enough money to pay all ex-
penses that the Municipality make up
any deficiency that may occur, provid-
ing that stock is sold within the time
limit.—Carried.

Moved by Mr. Ward, that the fol-
lowing applications for seed grain be
accepted: Luther Shatto, 400 bushels
of wheat; Martin Hoffman, 60 bushels
of barley.—Carried.

Moved by Mr. Shouldice, that the
rate of the current municipal levy be
reconsidered.—Carried.

Moved by Mr. Shouldice, that the
rate of taxation for the current year
be set at six mills on the dollar.—Car-
ried.

Moved by Mr. Sinclair, that W.
Jones, re road diversion W½ 4-21-23-
4, be paid \$300.00 on account.—Car-
ried.

Moved by Mr. Shouldice, that Reeve
Sinclair be allowed to contract what
work he may see fit to J. L. Base,
Road Grading.—Carried.

Moved by Mr. Rowe, that the report
of the committee re emergency work
in 20-21-4 be accepted by the council
of the Municipal District of Marquis,
No. 157.—Carried.

Moved by Mr. Shouldice, that the re-
port of the committee re emergency
work 19-21-4 be accepted and tabled
until the next meeting.—Carried.

Moved by Mr. Shouldice, that Town-
ship Nineteen, Range Twenty-one be
allowed the following appropriation
for road work during the current year.
The use of the engine and grader for
ten days; the furnishing of one tank
gasoline and sufficient lubrication oil
to run the outfit ten days; the pay-
ment of the wages of the engineer for
ten days; material for a culvert 4x6
and of sufficient length.—Carried.

Moved by Mr. Shouldice, that the
following be the 1921 appropriation as
regards road work during the current
year: Shouldice—20-22-4, \$1,000.00;
Shore—17-21-4, 18-21-4, \$730.00; Rowe
—\$2,630; Campbell—\$1,850.00; Ward
—\$1,720; Sinclair—\$1,550.00.—Car-
ried.

Moved by Mr. Shouldice, that the
Secretary communicate with the Milo
Board of Trade relative to their letter
re road lying between sections eight
and seventeen, 19-21-4, stating that
the district is in favor of the spending
of 50 per cent of the estimated cost of
this road as soon as financial matters
will permit. Also that the Secretary
write the Department of Public Works
relative to the matter.—Carried.

Moved by Mr. Sinclair, that permis-
sion be given to one, Paul Norton, for
the placing of a subway between
section 20 and 29-20-22-4, the Muni-

pality to furnish the material for same
but subway to be of sufficient length
for the clearance of any farm machin-
ery and the approaches of same to be
properly graded.—Carried.

Moved by Mr. Shore, that the dis-
trict donate the sum of one hundred
dollars towards the Municipal School
Fair Fund.—Carried.

Moved by Mr. Shouldice, that the
Municipality be divided into four dis-
tricts for the purpose of weed inspec-
tion and the assignment of the divi-
sions as regards weed inspectors be
left to the discretion of the Reeve and
Secretary.—Carried.

Moved by Mr. Rowe, that the sec-
retary write the Municipal District of
Harmony relative to the weeds in their
district blowing over into the Muni-
cipal District of Marquis, No. 157.—
Carried.

Moved by Mr. Shouldice, that the
district start Municipal Weed Inspec-
tor Charles Houghtelin in township 17
ranges 22 and 23 immediately.—Car-
ried.

Moved by Mr. Sinclair, that the fol-
lowing culverts be ordered: Rowe—1-
10x20, 2-15x24, 2-18x24; Campbell—3-
10x18; Shore—2-10x18.—Carried.

Moved by Mr. Shore, that the Muni-
cipal order for culverts be placed with
the Canada Ingot Iron Culvert Co.

Mr. Shouldice, moving an amend-
ment to the above as follows: That
one-half of the order be placed with
the Canada Ingot Iron Culvert Co. and
one-half with the Western Corrugated
Culvert Co.—Carried.

Moved by Mr. Shouldice, that the
road machinery purchases be tabled
until next meeting.—Carried.

Moved by Mr. Sinclair, that the dis-
trict furnish J. W. Balstad with seed
wheat to the extent of \$200.00, pro-
viding that proper security can be given
and that the same is being seeded
on summerfallow.—Carried.

Moved by Mr. Shouldice, that the
Secretary notify A. E. Eushell that
his application for leasing road allow-
ance between section 1 and 12-19-21-4
and 6 and 7-19-20-4, be referred to the
Department of Public Works as the
land in question does not appear to be
under the jurisdiction of this Muni-
cipal district.—Carried.

Moved by Mr. Shouldice, that the
secretary secure assignment of hail in-
surance losses from such portion of
the ratepayers as have received seed
grain advances.—Carried.

Moved by Mr. Rowe, that the wages
re engineer for the Municipal engine
be left to the Reeve, Donald Sinclair.—
Carried.

Moved by Mr. Campbell, that the
following bills be paid: Revelstoke
Saw Mill, \$60.10; McKay Hardware
Co., \$8.70; The Vulcan Supply Co.,
\$12.65; H. J. Maber, \$122.75; The Vul-
can Advocate, \$11.00; Paysheet No. 5,
J. G. Rowe, \$75.00; Paysheet, No. 4,
D. Sinclair, \$82.40.—Carried.

Moved that this meeting adjourn to
meet at the Lake McGregor School-
house, Saturday, June 4th, 1921, at
the hour of 10 o'clock a.m.

We believe that the large percent-
age of professional and business men
of the towns and villages throughout
the province have made their income
tax returns and remitted their cheque
to the government for the amounts
they owed. On the other hand the in-
formation has come to us that several
professional men in the city of Cal-
gary have not made out their returns
despite the fact that they have boast-
ed to friends of making from \$8,000
to \$10,000 the past year. No doubt
the Income Tax officials will finally
ferret out these individuals and make
them, not only pay the tax but also a
substantial fine for neglecting to file
returns before the thirtieth day of
April. With the imposition of the in-
come tax there must be no favoritism
shown.

The largest stock of gasoline on re-
cord—namely, 680,540,351 gallons—is
shown to be on hand in the United
States by a report of the American re-
finery statistics just compiled by the
Bureau of Mines. Besides this enor-
mous quantity, some 350,000,000 gal-
lons of gasoline have been shipped out
of the country monthly. There were a
total of 291 petroleum refineries in
operation, with a daily capacity of 1-
692,000 barrel of oil in February.
This total compared with that of Jan-
uary shows twenty less operating
plants and 28,935 barrels smaller daily
capacity.

NOT ART O'NEILL

A recently arrived English mechan-
ic protests that he failed to receive
his paper. The editor had difficulty
in understanding his name and asked
that he spell it.

"Ow do you spell it?" the Eng-
lishman said. "Spell it with a hoe
and a hen and a he and a hi and two
hells."

NOTICE

PURSUANT to Judgment and Final
Order for Sale made in a certain action
No. 16991 in the Supreme Court of Al-
berta, Judicial District of Calgary, there
will be offered for sale with the appro-
bation of the Court by public auction by
C. C. Rebbe, auctioneer, at the Post
Office in the Village of Vulcan, in the
Province of Alberta, on Saturday, the
21st day of May, 1921, at the hour of
2 o'clock in the afternoon, the following
property named:

The South-East Quarter (S.E. 1-4)
and the North-East Quarter (N.E.
1-4) of Section Fourteen (14), Town-
ship Seventeen (17), Range Twenty-
two (22), west of the Fourth Meri-
dian.

The vendor is informed that the above
property is situated about seventeen miles
from Vulcan on a good road. The
north-east quarter is a chocolate loam
on clay sub-soil and practically al-
l arable. It is fenced with three wire
fence. About 150 acres of this quarter
have been cultivated. The south-east
quarter is rolling, about 70 acres cap-
able of being farmed, the soil being the
same as the north-east quarter. On the
south-east quarter there is a well built
house 18 x 24, a coal shed 8 x 12, horse
stable 14 x 24, cow stable 14 x 18, bunk
house 10 x 18 and granary 10 x 12. A
drilled well is the source of the water
supply.

Terms of Sale—Ten per cent cash at
time of sale. Fifteen per cent within
sixty days from date of sale without in-
terest and the balance in three equal
instalments, six, twelve and eighteen
months from date of sale with interest
at 8 per cent.

The above property will be offered for
sale subject to a sealed reserve bid fixed
by the court, and free from all encum-
brances save taxes for the current year,
and the reservations and conditions con-
tained in the Grant from the Crown or
in the existing Certificate of Title.

For further particulars and conditions
of sale apply to Macleod, Robertson,
Smith & Company, solicitors for the
plaintiff, Canada Life Building, Calgary.
Dated at Calgary, Alberta, this 23rd
day of April, A.D. 1921.

Preserving Pineapples for sale—At Dyer Allans.

The sale of work and home cooking held in H. W. Reeves' store on Saturday afternoon last by the Ladies' Aid of Vulcan Church, was a very successful event. The affair was well attended and the many articles on sale found ready buyers. A sale of plants was also held and these also were eagerly bought by the ladies of the town.

Mr. E. D. Russell was a visitor in Calgary over the week end.

The Opera House was packed to the doors again on Saturday evening last when Hobart Bosworth in "Behind the Door" was shown in addition to an excellent comedy, entitled "Captain Kidd's Kids", featuring Harold Lloyd. Both picture and comedy were exceptionally good and was thoroughly enjoyed by all present. Next Saturday another splendid picture will be shown—"Madam X", featuring Pauline Frederick, and everybody should see it. "Male and Female," a super special will also be shown on June 1st and 2nd.

Everybody come to the Red Cross Schoolhouse on May 24th. The Redlandview Women's Institute plan to

hold a picnic (weather permitting) in the afternoon. Bring your baskets, friends and all the children and have a jolly good time. A good program of sports is being arranged. Sandwiches, cake, coffee and ice cream and other refreshments will be on sale. A dance will also be held in the evening. The funds obtained are to be used for sending delegates to the W. I. Convention.

RED CROSS NEWS

"Child Welfare" was the subject of a lecture by Miss Morkin at the Red Cross Schoolhouse, Friday evening, May 13th. A large and appreciative audience listened intently as Miss Morkin followed the two types of boys through life. The pictures shown, especially pleased the children who wished Miss Morkin could stay a week. She surely knows her subject and we hope the Women's Institute will bring many more like her.

Most of the Farmers have finished seeding in this district and are busy with the inevitable "Summer fallowing." Of all the optimistic people on earth, commend me to the Alberta Farmer. (notice Farmer with a capital "F").

Miss Hartley, our popular school teacher, who has been suffering from a severe attack of mumps is now able to be out again. School re-opened Monday after a weeks holidays.

Mrs. M. Dunham spent the week-end with her daughter Miss Addie at Camangay.

Sunday School is flourishing under the Superintendency of Mr. A. Clayton. Last Sunday the attendance was sixty-two, and a collection of over three dollars. The Bible class is most interesting.

ADVERTISING CAMPAIGN CLOSED

With this issue of our paper, the thirteenth publicity series for the Calgary Daily Herald appears and for the present it will be the last. Meanwhile we have reason to believe that good results will follow in the wake of the advertising campaign that has been so capably conducted by the advertising manager of The Herald, Mr. O. L. Spencer. The Calgary Daily Herald is unquestionably a great family newspaper and a distinct credit to the province—in fact the leading daily newspaper in the West and among the people of the High River electoral district we know it is in popular favor. Engaged on the editorial news and advertising staff are men of the highest type of citizenship and their personality is shown in the very excellent newspaper produced daily in the magnificently equipped Herald building. Being great believers in the efficacy of advertising, The Herald sought to enlarge their field of operation by advertising in the small town newspapers, not by popularity contests, and in this they displayed vision; for we have reason to believe that their business has been largely increased through the advertising campaign which closes this week. The daily and weekly features of The Calgary Herald embrace almost every important phase of human endeavor, with special departments for women and children. To those who are not subscribers and who wish to do so we can recommend their agents: Mr. R. L. Elves, Vulcan, and Mr. John Brant.

BORN—To Mr. and Mrs. Wm. Palmer, of Vulcan—a son.

PROVINCIAL NEWS ITEMS

The Medicine Hat election promises to be a very hot one with Farmers and Conservative parties battling for supremacy.

Five buffet proprietors in Calgary were fined \$200 and costs on Friday last charged with selling overstrength beer.

Two hundred destroyers, twenty-five battleships and fifty light cruisers were recently sold to British firms to be broken up for junk.

Canada leads the world in legislation along lines of social hygiene; declared Mrs. Pankhurst, the noted British suffragist, who spoke in Calgary on Friday last on Social Hygiene.

It is not too late to plant a tree or a number of them. Let every farmer in the district plant trees around their farms this year for it is the only insurance against soil drifting.

May wheat opened 1-8 to 1c higher; July unchanged to 5-8c higher; October 7-8c lower. May oats opened unchanged to 1-8c higher; July 1-8 to 1-4c lower; October 3-4c higher. May barley unchanged.

Forest fires did considerable damage down in Nova Scotia and Quebec last week. Alberta has been free of any fires as yet but great care must be exercised by all to prevent fires when camping season starts.

A forty ounce bottle of liquor will cost \$12 owing to the change in the tariff and this fact will do more to prohibit the use of liquor among the people than all the legislation that could be passed in a hundred years.

Lawyers fees in connection with the Winnipeg strike was discussed at Ottawa last week, when members wanted to know why A. J. Andrews was paid \$32,623.44, J. B. Coyne \$26,825, S. L. Goldstein \$19,374 and T. Sweatman \$2,687.50 and I. Pitbaldo \$2,675.

A young boy, J. Norris, aged 19 years, was charged recently in Calgary with a serious offence against a young school girl and will be punished according to his offence. Imprisonment and the whip should be administered in his case.

GREAT!

The public hailed "MADAME X" as one of the greatest plays ever presented.

Competent critics say that the picture is even greater.

But we want your opinion. We want you to see what we consider the finest part Pauline Frederick has ever played—and the most exalting, the most pathetic story ever screened.

It is officially announced that out of 400,000 acres of oil lands located in the Peace River block of Alberta and British Columbia, American oil interests have already secured 80,000 acres.

The Dominion livestock branch reports that their purchases of bulls at the Calgary sale totalled 57 head, on which they paid an average price of 217, and considered the best lot yet assembled in the western provinces.

NOTICE TO CREDITORS AND CLAIMANTS

IN THE ESTATE OF EDWARD CARL KOELLER, LATE OF VULCAN, IN THE PROVINCE OF ALBERTA, FARMER, DECEASED.

NOTICE is hereby given that all persons having claims upon the estate of the above named Edward Carl Koeller, who died on the twenty-eighth day of February, 1921, are required to file with Ruth Koeller, Vulcan, Alberta, by the First day of June, 1921, a full statement, duly verified, of their claims and of any securities held by them, and that after that date the said Ruth Koeller will distribute the assets of the deceased among the parties entitled thereto, having regard only to the claims of which Notice has been filed with the said Ruth Koeller, Vulcan, Alberta, the executrix of the Will of the said deceased.

DATED at Vulcan, Alberta, this 29th day of April, 1921.

L. H. STACK,
 Solicitor for the Executrix.
